

INTROSPECT Daily Journal Flow

Step 1: End of Trading Day

After market hours, the trader exports the Trade Book from their broker.

Examples:

- Zerodha
 - FYERS
 - Angel One
 - Upstox
 - Dhan
-

Step 2: Prepare Data

Copy only these columns from the Trade Book:

- Symbol
- Trade Type (BUY/SELL)
- Quantity
- Price
- Execution Time

Paste into the INTROSPECT template.

Step 3: Upload to INTROSPECT

Upload the completed template.

Step 4: Trade Reconstruction

INTROSPECT processes trades symbol by symbol.

For each symbol:

- Arrange trades by execution time
- Match BUY and SELL transactions
- Identify completed trades
- Calculate average entry and exit prices
- Calculate holding duration
- Calculate profit/loss

Step 5: Generate Daily Journal

INTROSPECT automatically creates the trading journal.

For each completed trade:

- Symbol
- Entry Price
- Exit Price
- Quantity
- Entry Time
- Exit Time
- Holding Time
- Profit/Loss

Step 6: Behavioral Analysis

INTROSPECT analyzes the day's trading activity.

Examples:

- Total Trades
- Win Rate
- Average Winner
- Average Loser
- Trade Frequency
- Time of Day Performance
- Position Sizing Patterns
- Overtrading Detection
- Revenge Trading Detection
- Averaging Down Detection
- Early Exit Detection

Step 7: Daily Trading Report

INTROSPECT presents:

- Daily P&L
- Trade Summary
- Performance Metrics
- Behavioral Insights
- Improvement Areas
- Discipline Score

User Effort Required

1. Export Trade Book
2. Copy 5 columns
3. Upload

Time Required: Less than 60 seconds

Everything else is handled automatically by INTROSPECT.
